Summary:

The Audit Committee is required to consider and recommend to Council, the adoption of the annual financial report, examine the audit and management reports, and review the report prepared by the Chief Executive Officer.

Background:

Pursuant to Section 7.9 of the *Local Government Act 1995* ("LGA"), an Auditor is required to examine the accounts and annual financial report submitted by a local government for audit. The Auditor is also required, by 31 December following the financial year to which the accounts and report relate, prepare a report thereon and forward a copy of that report to:

- (a) Mayor or President; and
- (b) The Chief Executive Officer; and
- (c) The Minister.

Furthermore, in accordance with Regulation 10(4) of the *Local Government (Audit) Regulations 1996* ("*Audit Regulations*"), where it is considered appropriate to do so, the Auditor may prepare a Management Report to accompany the Auditor's Report, which is also to be forwarded to the persons specified in Section 7.9 of the LGA.

On finalisation of the Shire's 2018/19 final audit, the Auditors have forwarded the Annual Financials Statements along with the Audit Report and the Audit Concluding Memorandum.

The Audit Committee is required to examine the reports of the auditor after receiving a report from the Chief Executive Officer ("CEO") on the matters reported and:

- Determine if any matters raised require action to be taken by the local government; and
- Ensure that appropriate action is taken in respect of those matters.

The Audit Committee is also required to review a report prepared by the CEO on any actions taken in respect of any matters raised in the report of the auditor and present the report to Council for adoption. A copy of the report is to be forwarded to the Minister prior to the end of the next financial year or 6 months after the last report prepared by the auditor is received, whichever is the latest in time.

The Audit Committee is requested to consider and recommend adoption of the annual financial report to Council.

Comment:

Following is the CEO's report to the Audit Committee on matters arising from the audit and management reports.

Audit Report

There was one adverse trend reported.

Reporting of any material matters that indicate significant adverse trends in the financial position of the Shire relating to the requirements of Local Government (Audit) Regulation 10(3)(a). The Auditor's used the statutory ratios disclosed and compared them against industry benchmarks and previously reported ratios. They also assessed how the ratios impact the operations of the Shire.

The Auditor's made the following comment;

Based on work performed, we noted a significant adverse trend in the financial position of the Shire as the Operating Surplus Ratio has been below the industry benchmark for the past 3 years.

Management Comment

Operating Revenue minus operating expenditure divided by own source revenue is the measure for the Operating Surplus Ratio. For 2018/19 the difference between operating revenue and operating expenditure was **(\$2,836,032)**. In order to meet the standard and improve the ratio Council needs to have the following strategic conversation with the community;

- Increase revenue generated from non - rating sources such as Kambalda airstrip, Shire tip sites and commercial activities
- Increase rates annually in excess of 7% over the next 5 years
- Increase rates revenue through rating of mining infrastructure
- Reduce levels of service on all operating activities

Council and management will continue to explore areas to help improve the operating position of the Shire. However this will not significantly improve the operating surplus ratio without the Council having a strategic conversation as suggested above.

Management Report

It provides an overview of the approach undertaken in respect of the annual audit process and the associated outcomes of the audit. The Management Report also identifies any findings that are considered relevant to the day to day operations of the Shire. There were no matters of statutory or financial non-compliance reported.

The Management Report for the period ended 30th June 2018 raised 11 issues requiring management attention (See attached). The report for the period ended 30th June 2019 raised none. A significant improvement.

Summary:

Audit Committee to recommend to Council to adopt the Annual Report for the year ended 30 June 2019 and set the date of the Annual Meeting of Electors

Background:

The annual Meeting of Electors is to consider the Annual Report for the year ended 30 June 2019. If Council were like minded the meeting could be held in Kambalda on January 28th, 2020.

Comment:

The Annual Report for the year ended 30 June 2019 is presented to Council for adoption. The report will be available to the public at the Administration Office and the Library, Barnes Drive Kambalda, and the Library in the Recreation Centre, Sylvester Street Coolgardie.

The Annual Financial Report is included in the Annual Report and it is noted the following matter to be reported in accordance with Reg 10(3) of the Local Government (Audit) Regulations 1996:

There is a significant adverse trend in the financial position of the Shire as the Operating Surplus Ratio has been below the industry benchmark for the past 3 years.

The primary tool set by the Department of Local Government and Communities for the measurement of the performance of each local government are the financial ratios. These have been presented for many years and demonstrate that there is a need for either an increase in revenue or reduction of operating expenditure.

Financial ratios are numerical representations of the organisation's performance. The ratios referred to are set for all local governments in Western Australia and are calculated as follows;

Current ratio	$\frac{\text{current assets minus restricted assets}}{\text{current liabilities minus liabilities associated with restricted assets}}$
Asset sustainability ratio	$\frac{\text{capital renewal and replacement expenditure}}{\text{Depreciation expenses}}$
Debt service cover ratio	$\frac{\text{annual operating surplus before interest and depreciation}}{\text{principal and interest}}$
Operating surplus ratio	$\frac{\text{operating revenue minus operating expenses}}{\text{own source operating revenue}}$
Own source revenue coverage ratio	$\frac{\text{own source operating revenue}}{\text{operating expenses}}$

The results for these ratios are shown in the following table.

Ratio	Standard	2019	2018	2017	2016
Current Ratio	>= 1.00	2.48	3.21	2.06	1.30
Asset Consumption	>= 0.75	0.97	0.75	0.97	0.98
Asset Renewal	>= 1.05	1.11	N/A	N/A	0.24
Asset Sustainability	>= 1.10	0.80	0.27	0.39	0.34
Debt Service Cover	>= 5.00	11.76	4.28	5.21	2.26
Operating Surplus	>= 0.15	(0.32)	(0.40)	(0.35)	(0.88)
Own Source Revenue Coverage	>= 0.90	0.65	0.62	0.62	0.51

COMMENT ON RATIOS

Current Ratio

The current ratio is a liquidity ratio that measures whether the Shire has enough resources to meet its short-term obligations. If current liabilities exceed current assets the current ratio will be less than 1 and is an early indicator that the Shire may have problems meeting its short-term obligations.

This ratio continues to remain above the standard. The reduction in the ratio from 2017/18 is due to an increase in current liabilities of \$560,000. This is due to current borrowings for new loans and accrued expenses for the Kambalda Swimming Pool.

Asset Sustainability Ratio

The Asset Sustainability ratio expresses capital expenditure on renewal and replacement of existing assets as a percentage of depreciation costs. This ratio is used to identify any potential decline or improvement in asset conditions. A percentage of less than 100% on an ongoing basis indicates assets may be deteriorating at a greater rate than spending on renewal or replacement.

A significant factor in calculating this ratio is the annual depreciation charge for roads and other infrastructure. This figure has been excessively high in previous years and following the completion of the fair value adjustments in the 2017/18 financial year, this ratio has improved significantly in the 2018/19 financial year due to an increase in asset renewal of \$1,959,641 and reduction in depreciation cost of \$807,549.

Sustaining the ratio at this level or improvement to this ratio will assist the Shire maintain its asset base at the right level into the future. Interpretation of this ratio should also be considered together with the Asset Consumption Ratio (above target at 0.97) and the Asset Renewal Funding Ratio (1.11).

Asset Renewal Funding Ratio

This ratio indicates whether Shire's planned capital renewal expenditure over the next 10 years as per its Long Term Financial Plan (LTFP) is sufficient to meet the required capital renewal expenditure over the next 10 years as per its Asset Management Plans (AMPs).

The ratio for 2018/19 is 1.11. This is a significant improvement on previous years when the ratio has not been calculated. This will also have a significant positive impact on the Financial Health Indicator (FHI) for the period ended 30th June 2019.

Operating Surplus Ratio

The Operating Surplus Ratio represents the percentage by which the operating surplus (or deficit) differs from the Shire's own source revenue which includes rates.

This ratio has improved slightly in the current year; however, it is still below the target level and in negative territory. In the Audit Report from the Shire Auditor the following comment was made;

In addition, we noted the following matter to be reported in accordance with Reg 10(3) of the Local Government (Audit) Regulations 1996:

- ***There is a significant adverse trend in the financial position of the Shire as the Operating Surplus Ratio has been below the industry benchmark for the past 3 years.***

Operating Revenue minus operating expenditure divided by own source revenue is the measure for the Operating Surplus Ratio. For 2018/19 the difference between operating revenue and operating expenditure was **(\$2,836,032)**. Consequently, in order to meet the standard and improve the ratio Council needs to have the following strategic conversation with the community;

- Increase revenue generated from non - rating sources such as Kambalda airstrip, Shire tip sites and commercial activities
- Increase rates annually in excess of 7% over the next 5 years
- Increase rates revenue through rating of mining infrastructure
- Reduce levels of service on all operating activities

Council and management will continue to explore areas to help improve the operating position of the Shire. However this will not significantly improve the operating surplus ratio without the Council having a strategic conversation as suggested above.
